

How do you share the knowledge and understanding you have gained throughout your life with teachers, peers, employers, friends and family? What is the depth of your educational and professional experience? How have you been shaped by events in your life and what evidence exists of your accomplishments? Are your valuable intellectual assets as secure as your financial assets?

Putting the Individual in Control

Owners can create multiple portfolios and dynamically share any of them with faculty, staff, employers and anyone else they choose to access their information. Individuals can add comments and share their insights. Similarly, faculty and others can review, rate, and provide feedback, creating a positive, interactive experience. Learning portfolios or Personal Development Plans help the individual to understand the value of their efforts.

Shared Creativity — iWebfolio Inspire

In the latest release of iWebfolio, Nuventive has introduced an innovative new concept to the electronic portfolio market — iWebfolio Inspire. With this advanced new set of capabilities, faculty, staff, and administrators can quickly and easily create portfolio designs of unlimited vari-

Reviewers

- ✓ Review, rate and provide feedback to portfolio owners
- ✓ Develop and manage portfolio templates and rubrics
- ✓ Manage tenure and professional development
- ✓ Extract data for program improvement
- ✓ Powerful reporting
- ✓ Valuable new communication channel for owners and reviewers

ety, and make them available throughout the institution. No need for expensive custom built or off-the-shelf templates that lack creativity. Now, with iWebfolio Inspire you can enable the development and delivery of your own portfolio designs and measures or unleash all of the creative energies of individual owners.

Evidence of Learning Outcomes

Assessment portfolios can help an individual or institution demonstrate that standards or competencies are being achieved. In order to meet institutional effectiveness requirements, institutions today need a wide range of examples of learning outcomes. The collection, organisation and retrieval of this learning evidence is difficult. With iWebfolio, owners can share and allow access to their portfolios. Using TracDat, Nuventive's tightly integrated institutional assessment management solution, you can utilize this portfolio data to support your continuous improvement process. Together, iWebfolio and TracDat provide the most comprehensive program and institutional assessment solution available.

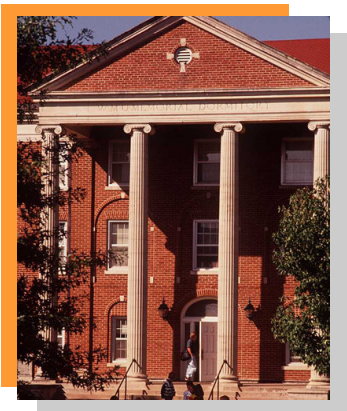

"The students are beginning to see iWebfolio as a vehicle for personal promotion and growth"

To get a true picture of an individual, employers and professional organisations also require evidence of achievement. Beyond degrees and certificates, are examples of work and the thought processes that went in to producing them. Presentation portfolios give owners a way to present skills and accomplishments in a unique and comprehensive manner.
